

costs would accrue from credit for the multiples attributed to assistance provided by Small Business Development Centers, Historically Black Colleges and Universities and minority institutions.

(d) The features identified in paragraphs (a), (b) and (c) of this section point out the portability of features from the DOD Mentor-Protégé Program to NASA prime contractors. NASA mentors will be held to show "good faith" by providing actual developmental assistance beyond transferring credit from activity in the DOD Program to NASA subcontracting plans.

1819.7205 General policy.

(a) Eligible large business prime contractors, not included on the "List of Parties Excluded from Federal Procurement and Nonprocurement Programs", who have at least one active subcontracting plan, and who are approved as mentor firms may enter into agreements with eligible entities (as defined in 1819.7209) as protégés to provide appropriate developmental assistance to enhance the capabilities of protégés to perform as subcontractors and suppliers. Eligible small business prime contractors, not included on the "List of Parties Excluded from Federal Procurement and Nonprocurement Programs", and that are capable of providing developmental assistance to protégés, may also be approved as mentors. An active mentor-protégé arrangement requires the protégé to be a subcontractor under the mentor's prime contract with NASA.

(b) The Mentor-Protégé program may be used in cost reimbursement type contracts and contracts that include an award fee incentive. Costs incurred by a mentor to provide the developmental assistance described in 1819.7214 are allowable. Except for cost-plus-award-fee contracts, such proposed costs shall not be included in the cost base used to develop a fee objective or to negotiate fee. On contracts with an award fee incentive, a contractor's Mentor-Protégé efforts shall be evaluated under the award fee evaluations.

1819.7206 Incentives for prime contractor participation.

(a) Proposed mentor-protégé efforts, except for the extent of participation of protégés as subcontractors, shall be evaluated under the Mission Suitability factor. The participation of SDB protégés as subcontractors shall be evaluated separately as a Mission Suitability subfactor (see FAR 15.304(c)(4) and 19.1202). The participation of other categories of protégés as subcontractors may be evaluated separately as part of the evaluation of proposed subcontracted efforts.

(b) Under contracts with award fee incentives, approved mentor firms shall be eligible to earn award fee associated with their performance as a mentor by performance evaluation period. For purposes of earning award fee, the mentor firm's performance shall be evaluated against the criteria described in the clause at 1852.219-79, Mentor Requirements and Evaluation. This award fee evaluation shall not include assessment of the contractor's achievement of FAR 52.219-9 subcontracting plan SDB goals or proposed monetary targets for SDB subcontracting (see FAR 19.1203).

1819.7207 Measurement of Program success.

The overall success of the NASA Mentor-Protégé Program encompassing all participating mentors and protégés will be measured by the extent to which it results in:

(a) An increase in the number, dollar value and percentage of subcontractors awarded to protégés by mentor firms under NASA contracts since the date of entry into the Program;

(b) An increase in the number and dollar value of contract and subcontract awards to protégé firms since the time of their entry into the Program (under NASA contracts, contracts awarded by other Federal agencies and under commercial contracts);

(c) An increase in the number and dollar value of subcontracts awarded to a protégé firm by its mentor firm; and
